Data Source: Behavioral Risk Factor Surveillance System

Data is based on the adults who reported that they had ever been told by a doctor that they had diabetes. Does not include pregnancy-related diabetes or pre-diabetes.

% = Weighted percentage of respondents

LCL= Lower 95% confidence level of the weighted percentage; UCL= Upper 95% confidence level of the weighted percentage

All percentages are weighted to be more representative of the population of Maine and to adjust for non-response.
